I live and breathe Javascript, Typescript, React, HTML and CSS. I'm a Software Engineer agnostic of languages & frameworks and have worked with all sorts of tech including GraphQL, Cypress and much more.

EXPERIENCE

15th April, 2019 – Present

Lyft

SENIOR SOFTWARE ENGINEER

Frontend Lead

- Built a Marketplace experience dynamic navigation with React & X-State
- Linked our teams data model to the Lyft GraphQL server in Go to enable a dynamic frontend
- Built an ecosystem of npm packages that enabled zero configuration i18n and CMS content for all Frontend services
- Lead several technology changes with the introduction of GraphQL, Cypress and auto generated Typescript types

26th June, 2017 – 28th February, 2019

Reflektive

SOFTWARE ENGINEER

- Planned, developed and maintained many of our core products with React and Redux
- Lead migration from Backbone to React
- Cut build time by 50% by migrating Webpack 3 > 4
- Migrated ~500 tests to Jest to reduce testing feedback loop

7th July, 2014 – 3rd June, 2016

IBM

SOFTWARE ENGINEER

- Developed internal websites to pitch solutions
- Developed data models to target customer behavior

EDUCATION

2017

Bradfield CS

COMPUTER ARCHITECTURE

- Building a strong mental model of the actual execution of programs by a microprocessor to better reason about the code I write

2011 - 2013

Monash University
