

# Guy Thomas

## Full Stack Developer & Front-end Expert

### LOCATION

San Francisco

### WEB

[guythomas.me](http://guythomas.me)

### EMAIL

[guythomas721@gmail.com](mailto:guythomas721@gmail.com)

I live and breathe Javascript, Typescript, React, HTML and CSS. I'm passionate about solving problems for users and fellow engineers using whatever tech I need.

## EXPERIENCE

15th April, 2019 – Present

### Lyft

SENIOR SOFTWARE ENGINEER

#### *Frontend Lead*

- Built an app featuring dynamic user flows with React & X-State
- Linked our data model to the Lyft GraphQL server in Go to enable a dynamic frontend
- Built an ecosystem of npm packages that enabled zero configuration 118n and CMS content for all Frontend services
- Lead several technology changes with the introduction of GraphQL, Cypress and auto generated Typescript types

26th June, 2017 – 31st January, 2019

### Reflektive

SOFTWARE ENGINEER

- Planned, developed and maintained many of our core products with React and Redux
- Lead migration from Backbone to React
- Cut build time by 50% by migrating Webpack 3 > 4
- Migrated ~500 tests to Jest to reduce testing feedback loop

7th July, 2014 – 3rd June, 2016

### IBM

SOFTWARE ENGINEER

- Developed internal websites to pitch solutions
- Developed data models to target customer behavior

## EDUCATION

2017

### Bradfield CS

COMPUTER ARCHITECTURE

- Building a strong mental model of the actual execution of programs by a microprocessor to better reason about the code I write

2011 - 2013

### Monash University

BACHELOR OF COMMERCE

#### *Major in Finance &*

#### *Information Technology*

- Built systems for business administration with VBA & Excel
- Architected and Implemented relational databases
- Modelled publically available financial data to provide company valuations
